A Brief Abstract of the Event (Maximum 500 Words):

Looking the potential of crop diversification owing to climate change, a training program organized on 30.12.2020 at Tendubhatha adopted villages. The significance of crop diversification for higher yield and climate resiliency were discussed by Dr. K. K. Chandra, Nodal Officer UBA. Shri Samir Bhattacharya, NGO Sanskriti highlighted the points related to kisan bills and try to convince farmers to support it. Dr. S. K. Sahi, Department of Botany, demonstrated the seed treatment and cutting methods of elephant foot yam. He also suggested farmers for growing Elephant foot yam (Jimikand) for production and increase the income of farming communities. In this program 55 farmers and farm women of all adopted villages

were invited for a demonstrative training and also provided improved seeds of jimikand for its commercial cultivation.
