A Brief Abstract of the Event (Maximum 500 Words):

A three days skill development training program from 23/08/2017 to 25/08/2017 on **Hand on Bonsai Training Program** was jointly organized by Department of Rural Technology and Social Development and Skill Development Cell, GGU at Department of Rural Technology and Social Development, GGU. Bonsai making is one of the unique ways of gardening. It is very unique in the sense that it is the only way in which plant species in a home can be preserved for more than 20 years, without altering their features, but only reducing the plants height and size by giving it very little manure. Dr. Bhaskar Chaurasia was the co-ordinator as well as one of the master trainers of this training program. Bonsai expert Mr. Sanjay Sharma and Dr. S. K. Gidwani was invited as external expert and master trainer. A total of 27 participants were registered for this training program. Mr. Sanjay Sharma gave comprehensive information of bonsai to the participants. He included information on bonsai art, bonsai types, soil preparation for potting mixture, potting and repotting of bonsai in his lecture. He also demonstrated making of **Ficus** bonsai. Dr. S. K. Gidwani gave a brief information on selection of pots and plant material for bonsai, making of mame. Dr. Gidwani demonstrated the making of bonsai of **Bougainvillea** and mame bonsai. Dr. Bhaskar Chaurasia demonstrated the wiring of techniques of plants, rock style bonsai etc.
