

**List of Courses Focus on Employability/ Entrepreneurship/
Skill Development**

Department : Physical Education

Programme Name : B.P.ED. & M.P.ED.

Academic Year : 2021-22

List of Courses Focus on Employability/ Entrepreneurship/Skill Development

Sr. No.	Course Code	Name of the Course
SEMESTER-I		
01.	CC-101	History, Principles and foundation of Physical Education
02.	CC-102	Anatomy and Physiology
03.	CC-103	Health Education and Environmental Studies
04.	EC-101/102	Olympic Movement/ Officiating & Coaching
		PRACTICAL (400)
05.	PC-101	Track & Field (Running Events)
06.	PC-102	Basketball
07.	PC-103	Kabaddi
08.	PC-104	Mass Demonstration Activities: Dumbbells / Wands / Hoop/Umbrella/Flag hoisting

SEMESTER-II

	CC-201	Yoga Education
	CC-202	Educational Technology and Methods of Teaching in Physical Education
	CC-203	Organization and Administration in Physical Education
	EC-201/ EC-202	Contemporary issues in Physical Education, fitness and wellness/ Sports Nutrition and Weight Management
		PRACTICAL (400)
	PC-201	Track and Field (Jumping Events)
	PC-202	Yoga
	PC-203	Badminton
		TEACHING PRACTICE (100)
	TP - 201	Teaching Practices (05lessons in class room teaching and 05 lessons in outdoor activities/Gym.)

SEMESTER-III

CC-301	Sports Training
CC-302	Computer Applications in Physical Education
CC-303	Sports Psychology and Sociology
EC-301/ EC-302	Sports Medicine, Physiotherapy and Rehabilitation/ Curriculum Design
	PRACTICAL (400)
PC-301	Track and Field (Throwing Events)
PC-302	Football
PC-303	Volleyball
	TEACHING PRACTICE (100)
TP - 301	Teaching Practice (Teaching Lesson Plans for Racket Sport/ Team Games/Indigenous Sports)

विभागाध्यक्ष
कार्यिक शिक्षा विभाग
गुरु घासीदास विश्वविद्यालय
बिलासपुर (छ.ग.)

SEMESTER-IV

CC-401	Measurement and Evaluation in Physical Education
CC-402	Kinesiology and Biomechanics
CC-403	Research and Statistics in Physical Education
EC-401/ EC-402	Theory of sports and Game/ Sports Management
	PRACTICAL (200)
PC-401	Kho-Kho
PC-402	Cricket
	TEACHING PRACTICE (200)
TP - 401	Sports specialization: Coaching lessons Plans (T&F) (Practical 5 lessons)
TP - 402	Games specialization: Coaching lessons Plans (Theory 5 lessons)

SEMESTER - I
CC-101 HISTORY, PRINCIPLES AND FOUNDATION OF PHYSICAL
EDUCATION

Course Objective: This course will enable students to understand the meaning, nature, need and scope of physical education and sports. Study about the scientific principles from various allied subjects in the field of physical education and sports. Describe the national Programmes of physical education and sports and youth welfare Programmes in the field of physical education and sports; and analyze the historical review of physical education and sports activities of Indian heritage.

Course Outcomes: After completing this course, the students will be able to-

1. Understand the wholesome development of the human being through various theories of physical Education.
2. Articulate the scientific relationship of physical Education with other related science.
3. Critically analyze the values of related national programs with sports bodies.
4. Estimate Impact of Olympic movement and international understanding through physical Education and sports.
5. Design the physical education programme in comparison with different growth and development.

Unit -I Introduction

Meaning, Definition and Scope of Physical Education
Aims and Objective of Physical Education
Importance of Physical Education in present era
Misconceptions about Physical Education
Relationship of Physical Education with General Education
Physical Education as an Art and Science

Unit-II Historical Development of Physical Education in India

Indus Valley Civilization Period. (3250 BC – 2500 BC)
Vedic Period (2500 BC – 600 BC)
Early Hindu Period (600 BC – 320 AD) and Later Hindu Period (320 AD – 1000 AD)
Medieval Period (1000 AD – 1757 AD)
British Period (Before 1947)
Physical Education in India (After 1947)
Contribution of IOA.

Unit- III Foundation of Physical Education

Philosophical foundation: Idealism, Pragmatism, Naturalism, Realism, Humanism,
Existentialism and Indian Philosophy and Culture

Modern Olympic Games

Para Olympic Games

Unit-IV Principles of Physical Education

Biological - Growth and development
Age and gender characteristics –
Body Types
Anthropometric differences

विभागाध्यक्ष
कार्यिक शिक्षा विभाग
गुरु घासीदास विश्वविद्यालय
बिलासपुर (छ.ग.)

Psychological - Learning types, learning curve
Laws and principles of learning
Attitude, interest, cognition, emotions and sentiments
Sociological - Society and culture
Social acceptance and recognition
Leadership - Social integration and cohesiveness

SYLLABUS OF EXAMINATION B. P. ED. PROGRAMME
SEMESTER - I
CC-102 ANATOMY AND PHYSIOLOGY

Course Objective: The objective of this course is to introduce the students about the Anatomy and Physiology; its importance in the field of physical education and sports. To understand how the structure and function of the body are related to each other. The students will understand the structure and function of various systems of the human body.

Course outcomes: Specific skills and competencies expected of students who complete this course include the following:

1. It is expected that the students will be able to know the importance of Anatomy and physiology in the area of physical education and sport.
2. It is expected that students able to understand about cell, tissue, skeletal system and various types of joints found in the human body.
3. Use correct terminology to discuss the components and functions of blood, as well as the formation and anatomy of blood cells.
4. Identify and explain the structure and functions of each body system.
5. At the end of the semester it is expected that the students will be able to use correct terminology to discuss the anatomical terms.
6. It is expected that the students will be able to understand the anatomy and physiology of Circulatory, Respiratory, Digestive, Excretory, Endocrine and Nervous system for the smooth functioning of human body.
7. It is expected that the students will be able to understand about the structure, composition, properties and functions of skeletal muscles.
8. It is expected that students will be able to understand about importance of physical fitness, warming up, conditioning, fatigue and diet.

UNIT-I

Brief Introduction of Anatomy and physiology in the field of Physical Education.

Importance of Anatomy and Physiology

Introduction of Cell and Tissue.

The arrangement of the skeleton – Function of the skeleton – Ribs and Vertebral column and the extremities.

Joints of the body and their types

Gender differences in the skeleton.

Types of muscles.

UNIT-II

Circulatory system: Constituents of blood and their function – Blood groups, clotting of blood, the structure of the heart, circulation of blood, cardiac cycle, blood pressure, Lymphatic circulation, Cardiac output.

The Respiratory system: The Respiratory passage – the lungs and their structure and exchange of gases in the lungs, mechanism of respiration (internal and external respiration) lung capacity, tidal volume.

The Digestive system: structure and functions of the digestive system, Digestive organs, Metabolism, The Excretory system: Structure and functions of the kidneys and the skin.

6

विभागाध्यक्ष
कार्यिक शिक्षा विभाग
गुरु घासीदास विश्वविद्यालय
बिलासपुर (छ.ग.)

The Endocrine glands: Functions of glands pituitary, Thyroid, Parathyroid, Adrenal, Pancreatic and the sex glands.

Nervous systems: **Parts of the brain**, Function of the Autonomic nervous system and Central nervous system, Reflex Action.

Sense organs: A brief account of the structure and functions of the Eye and Ear.

UNIT-III

Definition of physiology and its importance in the field of physical education and sports.

Structure, Composition, Properties and functions of skeletal muscles.

Nerve control of muscular activity: Neuromuscular junction & Transmission of nerve impulse across it. Fuel for muscular activity

Basic energy requirement for physical activity

Role of oxygen- Oxygen debt, second wind, vital capacity.

UNIT-IV

Effect of exercise and training on cardiovascular system.

Effect of exercise and training on respiratory system.

Effect of exercise and training on muscular system

Physiological concept of physical fitness, warming up, conditioning and fatigue.

Basic concept of balanced diet – Diet before, during and after competition.

SEMESTER - I
CC-103 HEALTH EDUCATION AND ENVIRONMENTAL STUDIES

Course Objective: The objective of this course is to make teachers capable of imparting basic knowledge about introduce the students about the health and its dimensions, scope, parameters and health problems etc.

Course Outcomes: After completing this course, the students will be able to-

1. The student will be able to identify and synthesize the factors that influence health.
2. The student will be able to recognize the health related problems/challenges in current time and able to apply the preventive measures.
3. The student will be able to understand Personal and Environmental Hygiene for schools
4. The student will be able to understand natural resources and related environmental issues.

Unit – I Health Education

Concept, Dimensions, Spectrum and Determinants of Health
Definition of Health, Health Education, Health Instruction, Health Supervision
Aim, objective and Principles of Health Education
Health Service and guidance instruction in personal hygiene

Unit – II Health Problems in India

Communicable and Non Communicable Diseases
Obesity, Malnutrition, Adulteration in food, Environmental sanitation, Explosive Population,
Personal and Environmental Hygiene for schools
Objective of school health service, Role of health education in schools
Health Services – Care of skin, Nails, Eye health service, Nutritional service,
Health appraisal, Health record, Healthful school environment, first- aid and emergency care etc.

Unit – III Environmental Science

Definition, Scope, Need and Importance of environmental studies.
Concept of environmental education, Historical background of environmental education,
Celebration of various days in relation with environment.
Plastic recycling & prohibition of plastic bag / cover.
Role of school in environmental conservation and sustainable development.

Unit – IV Natural Resources and related environmental issues:

Water resources, food resources and Land resources
Definition, effects and control measures of
Air Pollution, Water Pollution, Soil Pollution, Noise Pollution, Thermal Pollution
Management of environment and Govt. policies, Role of pollution control board.

SEMESTER - I
EC-101 OLYMPIC MOVEMENT (ELECTIVE)

Course Objective:

To make teachers capable of imparting basic knowledge about philosophy of olympic movements. Also provide knowledge about ethics, different olympic games etc. so that the student teacher can cater best knowledge to his or her students in their future endeavours.

Course Outcomes:

1. The students would be oriented with the rules regulations of the indigenous game and Gymnastics.
2. The students would be able to lay out and mark the dimensions of the court.
3. The students would be able to organize the concerned sports event and officiate in it.
4. The students would be oriented in the art of coaching the sports team.

Unit - I Origin of Olympic Movement

Philosophy of Olympic movement
The early history of the Olympic movement
The significant stages in the development of the modern Olympic movement
Educational and cultural values of Olympic movement

Unit - II Modern Olympic Games

Significance of Olympic Ideals, Olympic Rings, Olympic Flag
Olympic Protocol for member countries
Olympic Code of Ethics
Olympism in action
Sports for All

Unit - III Different Olympic Games

Para Olympic Games
Summer Olympics
Winter Olympics
Youth Olympic Games

Unit - IV Committees of Olympic Games

International Olympic Committee - Structure and Functions
National Olympic committees and their role in Olympic movement
Olympic commission and their functions
Olympic medal winners of India

SEMESTER - I

EC-102 OFFICIATING AND COACHING (Elective)

Course Objective:

To make teachers capable of imparting basic knowledge about rules, officiating and coaching of games and sports. Also develop skills and competencies to organize school and University level games and sports.

Course Outcomes:

1. The students would be oriented with the rules regulations of the indigenous games.
2. The students would be able to understand the role of a coach as a mentor.
3. The students would be able to organize the concerned sports event and officiate in it.
4. The students would be oriented with the qualities and duties of officials.

Unit- I: Introduction of Officiating and coaching

Concept of officiating and coaching
Importance and principles of officiating
Relation of official and coach with management, players and spectators
Measures of improving the standards of officiating and coaching

Unit- II: Coach as a Mentor

Duties of coach in general, pre, during and post game.
Philosophy of coaching
Responsibilities of a coach on and off the field
Psychology of competition and coaching

Unit- III: Duties of Official

Duties of official in general, pre, during and post-game.
Philosophy of officiating
Mechanics of officiating - position, singles and movement etc.
Ethics of officiating

Unit- IV: Qualities and Qualifications of Coach and Official

Qualities and qualification of coach and official
General rules of games and sports
Eligibility rules of intercollegiate and inter-university tournaments, preparation of TA, DA bills
Integrity and values of sports

CC-201 YOGA EDUCATION

Course Objectives: This course will enable students to provide theoretical and practical Knowledge, concept about Introduction of yoga. The students will provide theoretical, practical Knowledge and concept about foundation of yoga. The students will provide theoretical and practical Knowledge, concept about Asanas yoga.

Course Outcomes: After completing this course, the students will be able to-

1. Learn about yoga sutra, meaning and concept of yoga.
2. Learn about ashtang yoga.
3. Learn about asana, pranayam and kriyas

Unit - I: Introduction

Meaning and Definition of Yoga
Aims and Objectives of Yoga
Yoga in Early Upanisads
The Yoga Sutra: General Consideration
Need and Importance of Yoga in Physical Education and Sports

Unit - II: Foundation of Yoga

The Astanga Yoga: Yama, Niyama, Asana, Pranayama, Pratyahara, Dharana, Dhyana and Samadhi
Yoga in the Bhagavadgita - Karma Yoga, Raja Yoga, Jnana Yoga and Bhakti Yoga

Unit - III Asanas

Effect of Asanas and Pranayama on various system of the body
Classification of asanas with special reference to physical education and sports
Influences of relative, meditative posture on various system of the body
Types of Bandhas and mudras
Type of kriyas

Unit - IV Yoga Education

Basic, applied and action research in Yoga
Difference between yogic practices and physical exercises
Yoga education centers in India and abroad
Competitions in Yogasanas

CC-202 EDUCATIONAL TECHNOLOGY AND METHODS OF TEACHING IN
PHYSICAL EDUCATION

Course Objectives:- After completing the course the students will be able to explain the meaning, nature and scope of ET and its importance in Physical Educational, explain different modalities of teaching and designing instructional system. The students will apply Educational Technology in formal, non-formal, informal including open and distance education system, define and explain models of teaching and its application. The students will be able to develop instructional systems and design instructional strategies by different teaching methods.

COURSE OUTCOMES:- The Learning Outcomes of this subject are:-

1. To understand the role of Educational Technology in modern Physical educational practices.
2. To be acquainted with the approaches and components of Educational Technology.
3. To understand the stages, levels and maxims of teaching.
4. To keep abreast with different innovations in Educational Technology and try them out for improving teaching learning.
5. To deliver the lessons of physical education skillfully and successfully.
6. To understand the importance and types of teaching methods and techniques with its devices to teach various aspects of Physical Education skillfully.
7. To equip with the skills of advanced Teaching Aids for conduct of physical education program effectively.
8. To be proficient in construction of Lesson Plans for various Physical Education activities.
9. To gain the knowledge of classifying the types of presentation-techniques and technical preparations required for physical education lessons.
10. To understand the principles of class management and factors affecting class management.

Unit – I Introduction

Education and Education Technology- Meaning and Definitions
Types of Education- Formal, Informal and Non- Formal education.
Educative Process
Importance of Devices and Methods of Teaching.

Unit – II Teaching Technique

Teaching Technique – Lecture method, Command method, Demonstration method, Imitation method, project method etc.
Teaching Procedure – Whole method, whole – part – whole method, part – whole method.
Presentation Technique – Personal and technical preparation
Command- Meaning, Types and its uses in different situations.

Unit – III Teaching Aids

Teaching Aids – Meaning, Importance and its criteria for selecting teaching aids.
Teaching aids – Audio aids, Visual aids, Audio – visual aids, Verbal, Chalk board,
Charts, Model, Slide projector, Motion picture etc
Team Teaching – Meaning, Principles and advantage of team teaching.
Difference between Teaching Methods and Teaching Aid.

Unit – IV Lesson Planning and Teaching Innovations

Lesson Planning – Meaning, Type and principles of lesson plan.
General and specific lesson plan.
Micro Teaching – Meaning, Types and steps of micro teaching.
Smart Class Room Teaching-Meaning, Guidelines and Benefits.

SEMESTER -II

CC-203 ORGANIZATION AND ADMINISTRATION IN PHYSICAL EDUCATION

Course Objective: This course will enable students to understand the organization and administrations. To understand knowledge of basics of Office Management, Record, Register & Budget, Facilities, & Time-Table Management, Focuses on Competition Organization and planning

Course Outcomes: After completing this course, the students will be able to-

1. Understand and to imply the Organization and administration in sports.
2. Get equipped with the knowledge Office Management, Record, Register & Budget, Facilities, & Time-Table Management.
3. Guide for organize and planning tournaments.

Unit – I Organization and administration

Meaning and importance of Organization and Administration in physical education

Qualification and Responsibilities of Physical Education teacher and pupil leader

Planning and their basic principles,

Program planning: Meaning, Importance, Principles of program planning in physical education.

Functions of Planning, organizing, staffing, directing, communicating, co-ordination, controlling, evaluating and innovating.

Unit- II Office Management, Record, Register & Budget

Office Management: Meaning, definition, functions and kinds of office management

Records and Registers: Maintenance of attendance Register, stock register, cash register,

physical efficiency record, Medical examination Record.

Budget: Meaning, Importance of Budget making.

Criteria of a good Budget, Sources of Income, Expenditure, Preparation of Budget.

Unit-III Facilities, & Time-Table Management

Facilities and equipment management: Types of facilities Infrastructure-indoor, out door.

Care of school building, Gymnasium, swimming pool, Play fields, Play grounds

Equipment: Need, importance, purchase, care and maintenance

Time Table Management: Meaning, Need, Importance and Factor affecting time table.

Unit-IV Competition Organization

Importance of Tournament.

Types of Tournament and its organization structure - Knock-out Tournaments, League or

Round Robin Tournaments, Combination Tournament and challenge Tournament.

Organization structure of Athletic Meet

Sports Event Intramurals & Extramural Tournament planning

EC-201 CONTEMPORARY ISSUES IN PHYSICAL EDUCATION, FITNESS AND WELLNESS (ELECTIVE)

Course Objectives:- The objective of this course is to provide a clear understanding of contemporary issues in physical education fitness and wellness knowledge to the students. This course will also provide the knowledge to students about of various contemporary and current issues related to fitness, wellness and lifestyle.

Course Outcomes:- At the end of the course, students will be able to-

1. Understand importance of fitness and wellness in modern era.
2. Get advantage with the knowledge of various health benefits through fitness and wellness.
3. Understand hypo-kinetic diseases and their prevention and management.
4. Understand different principles of exercise program.
5. Provide guidelines for health and safety measures in daily life.
6. Understand first aid and emergency care.

Unit – I Concept of Physical Education and Fitness

Definition, Aims and Objectives of Physical Education, Fitness.
Importance and Scope of fitness.
Physical Education and its Relevance in Inter Disciplinary Context.
Concept of Fitness and Wellness in sedentary population.

Unit – II Fitness, Wellness and Lifestyle

Fitness – Types of Fitness and Components of Fitness
Understanding of Wellness.
Modern Lifestyle and Hypo kinetic Diseases – Prevention and Management.
Fitness and Health benefits.

Unit – III Principles of Exercise Program

Means of Fitness development – aerobic and anaerobic exercises.
Exercises and Heart rate Zones for various aerobic exercise intensities.
Concept of free weight Vs Machine, Sets and Repetition etc.
Concept of designing different fitness training program for different age group.

Unit – IV Safety Education and Fitness Promotion

Health and Safety in Daily Life.
First Aid and Emergency Care.
Prevention of Hypo-kinetic Disease for healthy and safety life.
Pregnancy and exercise.

SEMESTER -II

EC-202 SPORTS NUTRITION AND WEIGHT MANAGEMENT (ELECTIVE)

Course Objectives: - Students will demonstrate knowledge of energy balance in weight management; effects of diet and exercise on body composition and health; nutritional factors in the female athlete triad, eating disorders; misconceptions of inappropriate weight loss methods; calories per nutrient (food) and nutritional ergogenic aids.

Course Outcome: - At the end of the course, students will be able to-

1. Understand the fundamentals of weight loss (calories, protein, carbs, fat & more)
2. Create a diet plan that is perfect for your needs and lifestyle
3. Learn when, what and how much you should eat for optimal fat loss.
4. Develop healthy eating habits
5. Avoid weight loss scams and useless supplements
6. Stay motivated for long term results.
7. Describe the importance of daily nutrition in exercise performance.
8. Explain what to eat before, during, and after exercise training or competition

Unit - I Introduction to Sports Nutrition

Meaning and Definition of Sports Nutrition
Basic Nutrition guidelines
Role of nutrition in sports
Factors to be considered for developing nutrition plan

Unit - II Nutrients: Ingestion to energy metabolism

Carbohydrates, Protein, Fat - Meaning, classification and its function
Role of carbohydrates, Fat and protein during exercise
Vitamins, Minerals, Water - Meaning, classification and its function
Role of hydration during exercise, water balance, Nutrition - daily caloric requirement and expenditure.

Unit - III Nutrition and Weight Management

Meaning of weight management, Concept of weight management in modern era, Factor affecting weight management and values of weight management
Concept of BMI (Body mass index), Obesity and its hazard, Myth of Spot reduction.
Dieting versus exercise for weight control, Common Myths about Weight Loss.
Obesity - Definition, meaning and types of obesity.
Health Risks Associated with Obesity, Obesity - Causes and Solutions for Overcoming Obesity.

Unit - IV Steps of planning of Weight Management

Nutrition - Daily caloric intake and expenditure, Determination of desirable body weight.
Balanced diet for Indian School Children, Maintaining a Healthy Lifestyle.
Weight management program for sporty child.
Role of diet and exercise in weight management.
Design diet plan and exercise schedule for weight gain and loss.

SEMESTER - III

CC-301 SPORTS TRAINING

Course Objective: This course will enable students to know concepts of scientific sports training approach. To describe evident facts about training load, adaptation and recovery. To provide diagnosis to improve motor components. To inculcate periodized sports training practices for efficient sports performance.

Course Outcomes: After completing this course, the students will be able to-

1. Understand scientific sports training means and methods patterns.
2. Understand importance of training load, adaptation, and recovery to improve sports performance Enhance understanding about tailor-made diagnostic means and methods to develop motor components.
3. Encourage effective sports training formulation and regulation with correct feedback.

Unit - I Introduction to Sports Training

Meaning and Definition of Sports Training

Aim and Objective of Sports Training

Principles of Sports Training

System of Sports Training - Basic Performance, Good Performance and High Performance Training

Unit - II Training Components

Strength - Mean and Methods of Strength Development

Speed - Mean and Methods of Speed Development

Endurance - Mean and Methods of Endurance Development

Coordination - Mean and Methods of coordination Development

Flexibility - Mean and Methods of Flexibility Development

Unit - III Training Process

Training Load- Definition and Types of Training Load

Adaptation-Meaning and Process of Adaptation

Technical Training - Meaning and Methods of Technique Training

Tactical Training - Meaning and Methods of Tactical Training

Unit - IV Training programming and planning

Periodization - Meaning and types of Periodization

Aim and Content of Periods - Preparatory, Competition, Transitional etc.

Planning - Training session

Talent Identification and Development

CC-302 COMPUTER APPLICATIONS IN PHYSICAL EDUCATION

Course Outcomes: This course will enable students to understand the concept of computer Application.

Course Outcomes: At the end of the course, students will be able to-

1. Understand and to imply the basics of computer.
2. Get equipped with the knowledge of various application software.

Unit - I: Introduction to Computer

Meaning, need and importance of information and communication technology (ICT),
Application of Computers in Physical Education
Components of computer, input and output device
Application software used in Physical Education and sports

Unit - II: MS Word

Introduction to MS Word
Creating, saving and opening a document
Formatting Editing features Drawing table, page setup, paragraph alignment, spelling and grammar check printing option, inserting page number, graph, footnote and notes

Unit - III: MS Excel

Introduction to MS Excel
Creating, saving and opening spreadsheet
Creating formulas
Format and editing features adjusting columns width and row height understanding charts.

Unit - IV: MS Power Point

Introduction to MS Power Point
Creating, saving and opening a ppt. file
format and editing features slide show, design, inserting slide number picture, graph, table
Preparation of Power point presentations

SEMESTER - III

CC-303 SPORTS PSYCHOLOGY AND SOCIOLOGY

Course Objective: This course will enable students to understand the concept, basic theory and methodology of sports psychology and sociology as well. The knowledge of basics of Sports Psychology theory will establish the foundation from which Mental Training and Mental Readiness can be developed among Athletes. It also focuses on applied aspect of mental health or psychopathology which also provides scientific approach that guides the athletes to give good performance.

Course Outcomes: After successfully completing this course the student will be able to:-

1. Sports psychology teach skills and techniques to athletes that enhance their motor skills and learning processes, help them cope better with competitive pressure and anxiety, fine-tune the level of awareness that they need for optimal performance and to not lose focus amidst distractions and in a competitive environment.
2. Understand and to imply the concepts of sports psychology and sociology in various sports and games.
3. Get equipped with the knowledge of various psychological skills in improvement of performance.

Unit -I: Introduction

Meaning, Importance and scope of Educational and Sports Psychology
General Characteristics of Various Stages of growth and development
Types and nature of individual differences; Factors responsible –Heredity and environment
Psycho-sociological aspects of Human behaviour in relation to physical education and sports

Unit-II: Sports Psychology

Nature of learning, theories of learning, Laws of learning,
Plateau in Learning; & transfer of training
Meaning and definition of personality, characteristics of personality,
Dimension of personality, Personality and Sports performance
Motivation: types, theories and dynamics,
Mental Preparation Strategies: Attention focus, Self-talk, Relaxation, Imaginary.

Unit-III: Relation between Social Science and Physical Education

Orthodoxy, customs, Tradition and Physical Education,
Festivals and Physical Education,
Socialization through Physical Education,
Social Group life, Social conglomeration and Social group, Primary group and Remote group.

Unit-4 Culture : Meaning and Importance

Features of culture, Importance of culture,
Effects of culture on people life style,
Different methods of studying Observation/ Inspection method, Questionnaire method,
Interview method.

SEMESTER - III

EC-301 SPORTS MEDICINE, PHYSIOTHERAPY AND REHABILITATION
(ELECTIVE)

Course Objective: This course will enable students to understand the basic concept of sports medicine, physiotherapy, therapeutic exercises, massage and its manipulations, sports injuries and their rehabilitation. To understand each topic at a fairly understandable level to the students at this stage. Each concept has been explained through examples and application oriented problems.

Course Outcomes: At the end of the course, students will be able to-

1. Describe the importance of sports medicine, physiotherapy and rehabilitation.
2. Demonstrate the basics of sport first aid during and after game situation.
3. Understand the effect and use of various therapies.
4. Recognize the type of therapeutic exercise for better movements.
5. Care the athlete in a very effective manner

Unit-I: - Sports Medicine:

Sports Medicine: Meaning, Definition, Aims, Objectives, Modern Concepts and Importance.

Athletes Care and Rehabilitation: Contribution of Physical Education Teachers and Coaches.

Prevention of injuries in sports - Common sports injuries - Laceration, Blisters, Contusion, Strain, Sprain, Fracture, Dislocation and Cramps.

First Aid

Bandages - Types of Bandages - trapping and supports.

Unit-II: Physiotherapy & Modalities

Definition - Guiding principles of physiotherapy, Importance of physiotherapy, Introduction and demonstration of treatments - Electrotherapy - infrared rays - Ultraviolet rays - Short Wave Diathermy - Ultrasonic Rays.

Unit-III: Hydrotherapy: Modalities

Introduction and demonstration of treatments of Cryo therapy, Thermo therapy, Contrast Bath, Whirlpool Bath - Steam Bath - Sauna Bath - Hot Water Fomentation - Massage: History of Massage - Classification of Manipulation, Physiological Effect of Massage.

Unit-IV: Therapeutic Exercise:

Definition and Scope - Principles of Therapeutic Exercise - Classification, Effects and uses of Therapeutic exercise - passive Movements (Relaxed, Forced and passive - stretching) - active movements (concentric, Eccentric and static) application of the therapeutic exercise: Free Mobility Exercise - Shoulder, Elbow - Wrist and Finger Joints - Hips, Knee, ankle and Foot joints - Trunk, Head and Neck exercises.

EC-302 CURRICULUM DESIGN (Elective)

Course Objective: This course will enable students to know the concept of curriculum; students will be able to understand the mechanics of curriculum planning.

Course Outcomes: After completing this course, the students will be able to-

1. Understand and to implement the curriculum.
2. To enhance the knowledge of basic guideline for curriculum.
3. To understand the mechanics of curriculum planning

UNIT-I Modern concept of the curriculum

Need and importance of curriculum, Need and importance of curriculum development, the role of the teacher in curriculum development.

Factors affecting curriculum - Social factors - Personnel qualifications - Climatic consideration - Equipment and facilities - Time suitability of hours.

National and Professional policies, Research finding.

UNIT-II Basic Guide line for curriculum construction; contest (selection and expansion).

Focalization

Socialization

Individualization

Sequence and operation

Steps in curriculum construction.

UNIT-III Curriculum-Old and new concepts, Mechanics of curriculum planning.

Basic principles of curriculum construction.

Curriculum Design, Meaning, Importance and factors affecting curriculum design.

Principles of Curriculum design according to the needs of the students and state and national level policies.

Role of Teachers

UNIT-IV Under-graduate preparation of professional preparation.

Areas of Health education, Physical education and Recreation.

Curriculum design-Experience of Education, Field and Laboratory.

Teaching practice.

Professional Competencies to be developed-Facilities and special resources for library, laboratory and other facilities.

CC-401 MEASUREMENT AND EVALUATION IN PHYSICAL EDUCATION

Course Objectives: Objectives of the course is to enable the students to understand the meaning, nature, need and scope of the testing procedure to find the performance of the sports persons.

Course Outcomes: After completing this course, the students will be able to-

1. Identify the values of test and measurement with application backup.
2. Practice Criteria of test with the norms of validity, reliability and objectivity.
3. Plan Physical fitness measurements for developing speed, endurance, strength and Flexibility.
4. Argue some of the standardized test was learned such as Kraus welder test, Cooper 12 Minute's test which may enable them to administer test.
5. Design the physical education test programme in comparison with different sports and games.

Unit-I Introduction to Test & Measurement & Evaluation

Meaning and definition of Test, Measurement & Evaluation in Physical Education
Need & Importance of Test & Measurement & Evaluation in Physical Education
Principles of Evaluation

Unit-II Criteria; Classification and Administration of test

Criteria of good Test
Criteria of tests, scientific authenticity (reliability, objectivity, validity and availability of norms)
Type and classification of Test
Administration of test, advance preparation - Duties during testing - Duties after testing.

Unit-III Physical Fitness Tests

AAHPER youth fitness test
National physical Fitness Test
Indiana Motor Fitness Test
JCR test

Unit-IV Sports Skill Tests

Lockhart and McPherson badminton test
Johnson basketball test
McDonald soccer test
Brady volleyball test

CC-402 KINESIOLOGY AND BIOMECHANICS

Course Objective: The objectives of this course are to expose the students to analyse human movement anatomically and mechanically, and provide guidance in the application of mechanical principles and its implications in Physical Education and sports etc.

Course outcomes: Specific skills and competencies expected of students who complete this course include the following:

1. In this unit at the end of the semester, it is expected that the students will be able to know the importance of Kinesiology and Biomechanics in the area of physical education and sport.
2. It is expected that the students will be able to understand about the structure, composition, properties and functions of skeletal muscles.
3. It is expected that the students will be able to use correct terminology to discuss the anatomical terms of location structure of the human body.
4. It is expected that the students will be able to demonstrate and apply basic mechanical and physics principles to human movements.
5. It is expected that the students will be able to gain the ability to describe the fundamental movements in relation with mechanics and justify the efficiency of it.
6. It is expected that the students will be able to identify the relationship between anatomical structure, physiological function, and mechanical principles in relation to the performance of basic and complex motor skills.
7. It is expected that the students will be able to critically examine the performance of physical activity skills and to evaluate the performance against the principles of efficient movement.

UNIT-I Introduction to Kinesiology and Sports Biomechanics

Definition of Kinesiology and Sports Biomechanics

Importance of Kinesiology and Sports Biomechanics in Physical Education

Fundamental movements

Axes and Planes

Centre of gravity and line of gravity

Equilibrium and its factors

Work, Power and Energy

UNIT- II Kinesiological basis of musculo-skeletal system and neuro-muscular concept

Cartilage, ligament, tendon and bone

Joints and its classification

Axial and appendicular skeleton

Muscles and its types

Skeletal muscle, muscular contraction and angle of pull

Major muscles of upper extremity and its action

Major muscles of lower extremity and its action

All or none law

Reciprocal innervation or inhibition

विभागाध्यक्ष
कार्यिक शिक्षा विभाग
गुरु घासीदास विश्वविद्यालय
बिलासपुर (छ.ग.)

UNIT-III Application of mechanical principles

Motion, its types and its application in sports activities

Newton's laws of motion and its application in sports activities

Force, its types and its application in sports activities

Lever and its types and its application to human body

Linear Kinematics: Distance and Displacement, Speed and Velocity, Acceleration

Vectors and Scalars

Angular Kinematics: Angular Distance and Displacement, Angular Speed and Velocity, Angular Acceleration

Linear Kinetics: Inertia, Mass, Momentum, Friction

Angular Kinetics: Moment of Inertia, Couple, Stability

Projectile and Factors affecting projectile

UNIT-IV Application of kinesiology in daily life skill

Sitting and Standing,

Walking

Running

Ascending and descending from stairs

Catching

Throwing

Stooping

CC-403 RESEARCH AND STATISTICS IN PHYSICAL EDUCATION

Course Objectives: The objectives of this course are to expose the students to the brief range of research process, to make familiar them with basics of statistical analysis, and provide guidance in the essentials of research and statistical models by using.

Course Outcomes: At the end of the course, it is expected that the students will be able to:

1. To understand research process.
2. Students will also be able to analyse the basic models of statistical tools.

Unit-I Introduction to Research

Definition of Research

Need and importance of Research in Physical Education and Sports.

Scope of Research in Physical Education & Sports.

Classification of Research

Unit-II Survey of Related Literature

Need for surveying related literature.

Importance for surveying related literature.

Literature Sources, Library Reading

Research Proposal- Meaning, Need and Importance

Preparation of Research proposal / project.

Unit-III Basics of Statistical Analysis

Statistics: Meaning, Definition, Nature and Importance

Class Intervals: Raw Score, Continuous and Discrete Series, Class Distribution.

Construction of Tables

Graphical Presentation of Class Distribution: Histogram, Frequency Polygon, Frequency Curve.

Cumulative Frequency Polygon, Ogive, Pie Diagram

Unit-IV Statistical Models in Physical Education and Sports

Measures of Central Tendency: Mean, Median and Mode-Meaning, Definition.

Importance, Advantages, Disadvantages and Calculation from Group and Ungrouped data

Measures of Variability: Meaning, importance, computing from group and ungroup data.

Percentiles and Quartiles: Meaning, importance, computing from group and in-group data

SEMESTER - IV

EC-401 THEORY OF SPORTS AND GAMES (ELECTIVE)

Course Objectives: The objectives of this course are to expose the students to the history of sports and games, to make familiar them with physical fitness components.

Course Outcomes: At the end of the course, it is expected that the students will be able to:

1. To understand the history and theory of sports and games.
2. Students will also be able to analyse the scientific principles of coaching.
3. Students will also be able to understand about the ground preparation, dimensions and marking
4. Students will also be able to understand about the Standard equipment and their specifications.
5. Students will know about the ethics of sports and sportsmanship.

UNIT-I INTRODUCTION

General Introduction of specialized games and sports-

Athletics, Badminton, Basketball, Cricket, Football, Gymnastic, Hockey, Handball, Kabaddi, Kho-Kho, Tennis, Volleyball and Yoga.

Each game or sports to be dealt under the following heads

History and development of the Game and Sports

Ground preparation, dimensions and marking

Standard equipment and their specifications

Ethics of sports and sportsmanship

UNIT-II Scientific Principles of coaching: (particular sports and game specific)

Motion – Types of motion and Displacement, Speed, Velocity, Acceleration, Distance and Newton's Law of motions.

Force – Friction, Centripetal and Centrifugal force, Principles of force.

Equilibrium and its types

Lever and its types

Sports Training – Aims, Principles and characteristics.

Training load – Components, Principles of load, Over Load (causes and symptoms).

UNIT-III Physical fitness components: (particular sports and game specific)

Speed and its types, Strength and its types, Endurance and its types, Flexibility and its types

Coordinative ability and its types, Training methods: - Development of components of

physical fitness and motor fitness through following training methods (continuous method, interval method, circuit method, fartlek /speed play and weight training)

UNIT-IV Conditioning exercises and warming up.

Concept of Conditioning and warming up.

Role of weight training in games and sports.

Teaching of fundamental skill & their mastery (technique, tactic and different phases of skill acquisition).

Recreational and Lead up games

Strategy – Offence and defense, Principles of offence and defense.

EC-402 SPORTS MANAGEMENT (ELECTIVE)

Course Objectives: This course will enable students to understand the concept of sports management, essential skills of sports management in physical education and sports. To understand each topic at a fairly understandable level to the students at this stage. Each concept has been explained through examples and application oriented problems.

Course Outcomes: After completing this course, the students will be able to-

1. Understand the concept of management in physical education and sports.
2. Describe the various functions of management and hence enhance the employability skills.
3. Analyze the concept of administration and supervision.
4. Explain the importance and maintenance of facilities, equipment and records.
5. Prepare the financial budget for physical education & sports.

Unit-I

Nature and Concept of Sports Management.
The purpose and scope of Sports Management.
Essential skills of Sports Management.
Qualities and competencies required for the Sports Manager.
Principle of sports management

Unit-II

Meaning and Definition of leadership
Leadership style and method. Elements of leadership.
Forms of Leadership- Autocratic, Laissez-faire, Democratic, Benevolent Dictator
Qualities of administrative leader.
Preparation of administrative leader.
Leadership and Organizational performance

Unit-III

Sports Management in Schools, colleges and Universities.
Factors affecting planning
Planning a school or college sports programme.
Directing of school or college sports programme.
Controlling a school, college and university sports programme.
Developing performance standard
Establishing a reporting system
Evaluation
The reward/punishment system

Unit-IV

Financial management in Physical Education & sports in schools, Colleges and Universities.
Budget- Importance, Criteria of good budget, Steps of Budget making, Principles of budgeting.

DEPARTMENT OF PHYSICAL EDUCATION
GURU GHASIDAS VISHWAVIDYALAYA BILASPUR (C.G.)
SYLLABUS OF PRACTICAL EXAMINATION B. P. ED. PROGRAMME

Part - B
Practical Courses
Semester - I

PC - 101

Track and Field:

Types of Races- Short distance, medium distance, long distance
Starting techniques: Standing start, Crouch start and its variations, Proper use of blocks.
Finishing Techniques: Run Through, Forward lunging, Shoulder Shrug
Track Marking, Rules and Officiating
Hurdles: Fundamental Skills- Starting, Clearance and Landing Techniques. Types of Hurdles race
Relays: Fundamental Skills, various patterns of Baton Exchange Understanding of Relay Zones

PC - 102

Basket ball: Fundamental Skills

Player stance and ball handling
Passing-Two Hand chest pass, Two hand Bounce Pass, One Hand Base ball pass, Side Arm Pass, Over Head pass, Hook Pass
Receiving-Two Hand receiving, One hand receiving, Receiving in stationary position, Receiving while jumping, Receiving while running.
Dribbling-How to start dribble, How to drop dribble, High dribble, Low dribble, Reverse dribble, Rolling dribble. Shooting-Layup shot and its variations, one hand set shot, One hand jump shot, Hookshot, Free throw. Rebounding-Defensive rebound, Offensive rebound, Knock out, Rebound Organization. Individual Defensive-Guarding the man with the ball and without the ball.
Pivoting, Rules and their interpretations and duties of the officials.

PC - 103

Kabaddi: Fundamental Skills

oSkills in Raiding-Touching with hand, various kicks, crossing of bank line, Crossing of Bonus line, Luring the opponent to catch, Pursuing.
oSkills of Holding the Raider-Variations formations, Catching from particular position, Different catches, Luring the raider to take particular position so as to facilitate catching, catching formations and techniques.
oAdditional skills in raiding-Bringing the raider in to particular position, Escaping from various holds, Techniques of escaping from chain formation, Combined formations in offence and defense.
oGround Marking, Rules and Officiating

PC - 104

Mass Demonstration

Dumbbells/ Wands/ Hoop/ Umbrella/ Tipri: Fundamentals skills

Apparatus/ Light apparatus Grip, Attention with apparatus/ Light apparatus, Stand - at - ease with apparatus/ light apparatus, Exercise with verbal command, drum, whistle and music - Two count, Four count, Eight count and Sixteen count, Standing Exercise Jumping Exercise, Moving Exercise, Combination of above all.

GURU GHASIDAS VISHWAVIDYALAYA BILASPUR (C.G.)
SYLLABUS OF EXAMINATION B. P. ED. PROGRAMME

Semester - II

PC - 201

Track and Field

Athletics: Jumping Events

High Jump (Straddle Roll) -Approach Run, Take off, Clearance over the bar.

Measurement, Rules and Officiating

Equipment's, placement of equipment's

PC - 202

Yoga:

SuryaNamaskara,

Pranayama

CorrectiveAsanas

Kriyas

Asanas

- Sitting

- Standing

- Laying Prone Position,

- Laying Spine Position

PC-203

Badminton: Fundamental Skills

Racket parts, Racket-grips, Shuttle Grips.

The basic stances.

The basic strokes-Serves, Forehand-overhead and underarm, Backhand-overhead and underarm

Drills and lead up games

Types of games-Singles, doubles, including mixed doubles.

Roles and their interpretations and duties of officials.

TP - 201 Teaching practices:

10 teaching practice lessons out of which 5 lessons in class-room situation and 5 lessons for out-door activities within premises on the students of B.P.Ed course.

DEPARTMENT OF PHYSICAL EDUCATION
GURU GHASIDAS VISHWAVIDYALAYA BILASPUR (C.G.)
SYLLABUS OF EXAMINATION B. P. ED. PROGRAMME

Semester – III

PC – 301

Track and fields (Throwing Events)

Discus Throw, Javelin, Hammer throw, shot-put
Basic Skills and techniques of the Throwing events
Ground Marking / Sector Marking
Interpretation of Rules and Officiating.
Grip
Stance
Release
Reserve/ (Follow through action)
Rules and their interpretations and duties of officials

PC 302

Football: Fundamental Skills

Kicks-Inside kick, Instep kick, Outer instep kick, lofted kick
Trapping-trapping rolling the ball, trapping bouncing ball with sole
Dribbling-With instep, inside and outer instep of the foot.
Heading-From standing, running and jumping.
Throw in
Feinting-With the lower limb and upper part of the body.
Tackling-Simple tackling, Slide tackling.
Goal Keeping-Collection of balls, Ball clearance-kicking, throwing and deflecting.

PC 303

Volleyball: Fundamental Skills

Players Stance-Receiving the ball and passing to the team mates.
The Volley (Over head pass).
The Dig(Under hand pass).
Service-Under Arm Service, Side Arm Service, Tennis Service, Round Arm Service.
Rules and their interpretations and duties of officials.

TP – 301 Teaching practices:

10 teaching lesson plans for Racket Sport/ Team Games/ Indigenous Sports out of which 5 lessons internal and 5 lessons external at school.

Internship program: It was resolved in the Board of Studies Meeting (BOS) that as per NCTE norms every student of B.P.Ed. -III Semester is supposed to go through the internship programme of 45 days from 15th June to 31st July. It is compulsory for all the students to go through the internship program.

DEPARTMENT OF PHYSICAL EDUCATION
GURU GHASIDAS VISHWAVIDYALAYA BILASPUR (C.G.)
SYLLABUS OF EXAMINATION B. P. ED. PROGRAMME

Semester – IV

PC - 401 Kho-Kho:

General skills of the game-Running, chasing, Dodging, Faking etc.
Skills in chasing-Correct Kho, Moving on the lanes, Pursuing the runner, Tapping the inactive runner, Tapping the runner on heels, Tapping on the pole, Diving, Judgement in giving Kho, Rectification of Foul,
Skills in Running-Zigzag running, Single and double chain, Ring play, Rolling in the sides, Dodging while facing and on the back, fakes on the pole, fake legs, body arm etc.
Combination of different skills.
Ground Marking
Rules and their interpretations and duties of officials.

PC – 402 Cricket: Fundamental Skills

Batting-Forward and backward defensive strokes
Bowling-Simple bowling techniques
Fielding-Defensive and offensive fielding
Catching-High catching and Slip catching
Stopping and throwing techniques
Wicket keeping techniques

TP – 401 Sports Specialization: Track and field

(4 internal lesson and 1 final external lesson on the students of as a sports specialization of any discipline mentioned above.)

TP- 402 Games Specialization: Athletics, Kabaddi, Kho- kho, Cricket, Football, Volleyball, Basketball, Badminton, Yoga
