Guru Ghasidas Vishwavidyalaya, Bilaspur (C.G.)

Scheme and Syllabus

Pre -Ph.D. Syllabus in Anthropology With University Regulation Dept of Anthropology and Tribal Development GGU, Koni

The syllabus of Pre- Ph.D. course work in Anthropology, Dept of Anthropology and Tribal Development of Guru Ghasidas Vishwavidyalaya shall consists of three theoretical papers and one seminar presentation. The first two papers shall be compulsory while the third paper shall be an optional paper. The optional papers shall have two alternatives: 1. Theoretical Perspectives in Socio-cultural and Development Anthropology and 2. The Applied Biological Anthropology and Human Genetics. The students are to choose any one of the optional papers out of two. The duration of the course will be of six months. There shall be no internal assessment but the examination will be conducted at the end of semester and evaluation after completion of six months course work with minimum of 75 % attendance (Compulsory). The minimum passing marks for individual paper is 40 % and however, in an aggregate it should not be less than 60 % (As per university Ph.D. regulation). The seminar will be mandatory but qualifying on recommendation of DRC and the approval of chairmen of DRC as per rule of university issued from time to time. The evaluation process of seminar will be as follows”-

1. Valuation of Subject content	40 %
2. Presentation skill	20 %
3. Students attendance and behaviour	10 %
4. Viva-voce	20 %
5. Applicability of the subject	10 %

Pre-Ph.D. Course Work -

Paper Code	Paper	End Semester (Marks)	Passing Marks (%) (As amended)
Paper-101 (Compulsory)	Research Methodology and Computational Statistics	100	40
Paper-102 (Compulsory)	Bio-Social Problems of Indian Population	100	40
Paper-103 (Optional)	Theoretical Perspective in Socio-Cultural and Developmental Anthropology	100	40
	Or Applied Biological Anthropology and Human Genetics		
	Total	300	60 (Aggregate)
	Seminar	Qualifying	As per Regulation

DEPARTMENT OF ANTHROPOLOGY & TRIBAL DEVELOPMENT GURU GHASIDAS UNIVERSITY, BILASPUR Chhattisgarh

 Guru Ghasidas Vishwavidyalaya, Bilaspur (C.G.)

OUTCOME OF THE PRE-PHD COURSE WORK SYLLABUS

- (i) The scholar will have a fundamental and systematic or coherent understanding of the academic field of Anthropology.
- (ii) The scholar will have knowledge that creates different types of professionals related to the disciplinary/subject area of Anthropology, including professionals engaged in research and development, teaching and government/public services;
- (iii) A skilful group of Scholars with different specializations and emerging developments in the field of Anthropology will be available in the market.
 - Scholars will demonstrate the ability to use the knowledge of Anthropology in formulating and tackling Anthropology-related problems and identifying and applying appropriate anthropological principles and methodologies to solve a wide range of problems associated with human society.
 - All the stakeholders including the scholar will recognise the importance of qualitative as well as quantitative data and approaches/methods in comprehending the human society.
 - Scholars will plan and execute Anthropology-related experiments or field investigations, analyse and interpret data/information collected using appropriate methods, including the use of appropriate software such as programming languages and report accurately the findings of the experiment/field investigations while relating to the conclusions/findings to relevant theories of Anthropology.
 - The scholars will demonstrate relevant generic skills and global competencies such as:
 - (i) Scholars will possess problem solving skills that are required to solve different types of Anthropology-related problems with well-defined solutions, and tackle open-ended problems that may cross disciplinary-area boundaries;
 - (ii) Scholars will be competent enough in investigating skills, related to Anthropology-related issues and problems;
 - (iii) Scholars will be equipped with communication skills involving the ability to listen carefully, to read text and research papers analytically and to present complex information in a concise manner to different groups/audiences;
 - (iv) Analytical skills of the students will be increased and ability to construct logical arguments using correct technical language related to Anthropology;
 - (vi) Personal skills ability of the students will be increased to work both independently and in a group.
 - The Scholars will demonstrate professional behaviour such as:
 - (i) Being objective, unbiased and truthful in all aspects of work and avoiding unethical behaviour such as fabricating, falsifying or misrepresenting data or to committing plagiarism;

- (ii) With the ability to identify the potential ethical issues in work-related situations;
- (iii) And will appreciate the intellectual, environmental and sustainability issues; and
- (iv) In promoting safe learning and working environment.

Paper-101 (Compulsory)

100Marks

Research Methodology and Computational Statistics

Unit-I. Basic concept of fact, Concept, Proposition, Theory, Hypothesis and Law. Basic concept of scientific method: Logic, Ontology and Epistemology. Philosophy of Science, Biological Science, Social Science, Paradigm in Science and Social Science and **Research Ethics**

Unit-II. Objective and purpose of Research; Research Design: Types of Research Design: Exploratory, Descriptive and Experimental; Sampling Design and types of Sampling. **Preparation of Research Proposal and Review article.**

Unit-IV. Basic statistical concepts- Measures of Central Tendency, Measures of Dispersion and Statistical Tests; Co-relation, Regression and Multivariate Analysis, Multiple Regression and Factor analysis, Multi-dimensional scaling. (SPSS Package operation)

Unit-V. Field work and Fieldwork Tradition in Anthropology, Qualitative and Quantitative Research; **Emit and Etic approaches; Synchronic and diachronic dimensions of anthropological research; comparison of ethnographic data techniques of data collection: observation method, questionnaire method, schedule method, case study method, interview method, scaling technique, analysis of quality Ethnography and New Ethnography; Ethno-Methodologies; Analysis of Qualitative data; and Classification of data. Ethics of doing fieldwork.**

Unit-VI. **Research and publication ethics; publication of ethics, conflict of interest, publication misconduct, open access publication: SHERPA/ROME0; online resources; software tools by SPPU; journal suggestion tool like JANE, ELSEVIER PUBLISHER, SPRINGER, use of plagiarism software, like turnitin, Urkund; Indexing data base; citation data base, web of science and Scopus,; research metrics: impact factor journal, SNIP STR, IPP, Cite score, metric: high index, g-index, i10-index, alt metrics.**

Writing of Thesis, Report, Scientific Paper in Journal and Book chapter; Preparation of scientific research proposal and review article
