### **Report Induction Programme 2021-22**

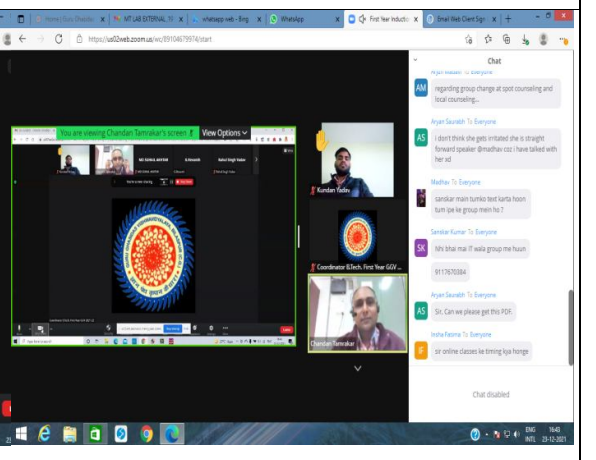

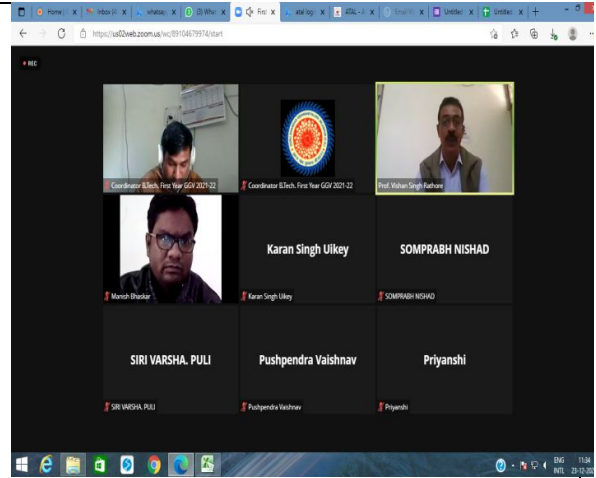

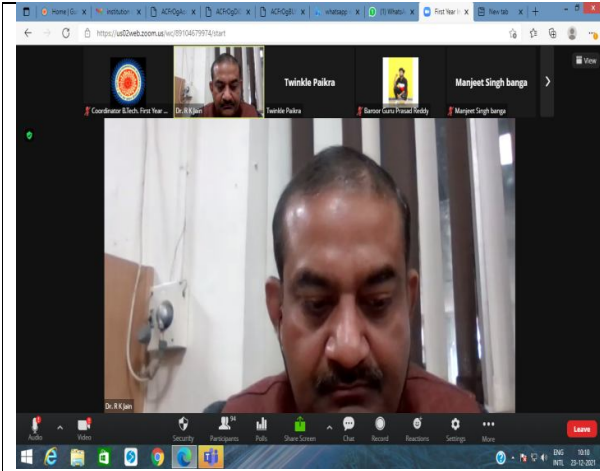

Today on 23/12/2021, first session initiated by Dr. Ravindra Kumar Jain, Head Department of Biotechnology, Anand Engineering College, Agra. He delivered the lecture on secret of health life style. He told the secrets for good health like fitness, sleep, nutrition, mindfulness, social wellness, the proactive health promise.

Next lecture, delivered by Dr. (Prof.) V. S. Rathore, Chief Proctor & Professor, Department of Physical Education, GGV, Bilaspur. He discussed about the disciplinary rules and regulation such as students should treat staff with respect at all times and is courteous to fellow students. Students will refrain from damaging any form of university property. The university reserves the right to be compensated by the student for any such damages. Students will refrain from littering and keep the department premises clean. Discipline in student life means working with all honesty with strict adherence to rules and regulations, cultural standards, and values.

Second session, initiated by Mrs. Bhavna Shukla, Assistant Professor, Department of Electronics and Communication Engineering on Health and Natural Environment. Health and Natural Environment through numerous ecosystem services natural environments play a fundamental role in protecting health. Various populations depend on nature for basic material, such as fresh water, wood, fuel, and nutritious food.

Next lecture delivered by Dr. Anil Soni and Mr. Chandan Tamrakar, Assistant Professor's Department of Electronics and Communication Engineering. Dr. Anil Soni talked on direct and indirect relationships & carrier guidance. The direct and indirect relationships within the extended trans-contextual model for moderate-to-vigorous physical activity. The career, life projects, training needs, counselling services performing direct or indirect counselling tasks for employment.

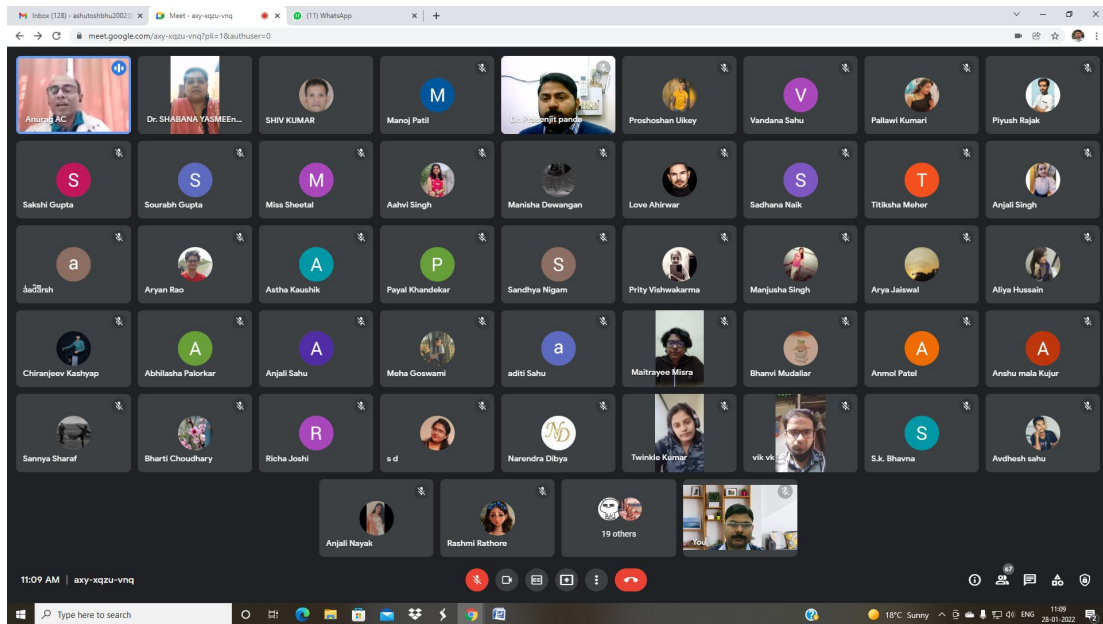

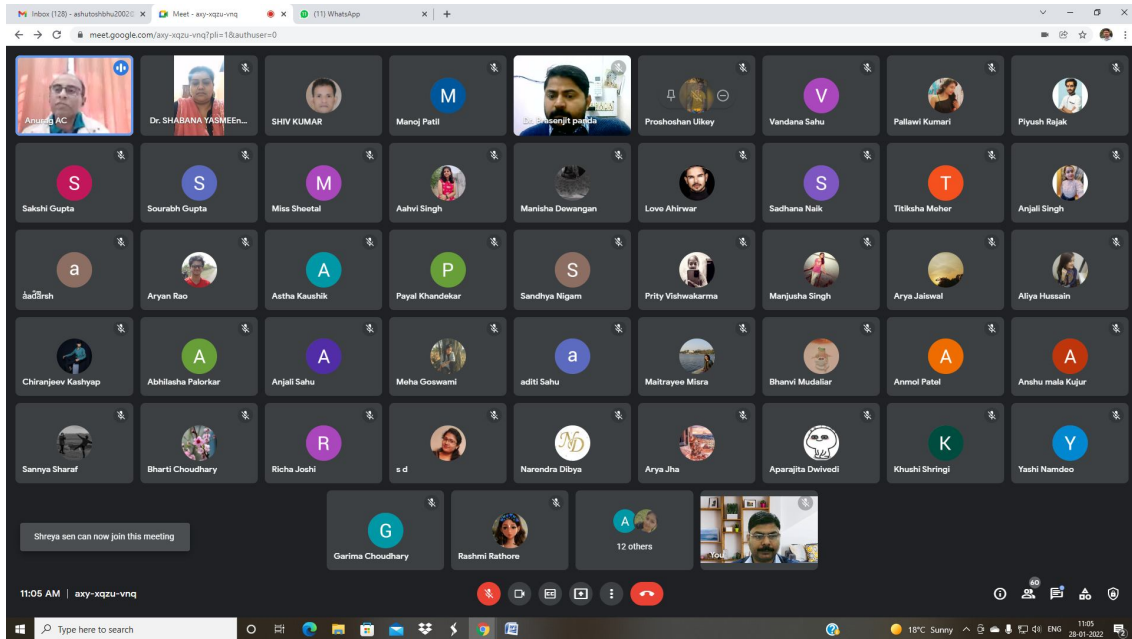

Mr. Chandan Tamrakar discussed about incorporating universal human values in education realising the aspirations of NEP 2020. To help the student to see the need for developing a holistic perspective of life. To sensitize the student about the scope of life – individual, family, society and nature/existence. Strengthening self-reflection. To develop more confidence and commitment to understand, learn and act accordingly. These values enable aspiring and practising engineers to maintain their equanimity while facing such challenges. It also makes them capable of taking decisions that do not violate any ethical values in their daily interactions.
