### M.TECH. MAJOR PROJECT

Title	Comparison and Analysis of Elliptic Curve Cryptography and Discrete logarithm Algorithm for key generation and use it for text encryption
Tools used	Matlab, Galois Field Toolbox

Description	The main objective of this project is to generate random sequence by ECC and test the randomness of the sequence generated. The object of report is to develop working software for random sequence based on ECC. This sequence can be used in various applications such as image processing, digital signature authentication, text encryption etc.
