National Science Day is celebrated every year on 28 February, to celebrate the birthday and in the memoir of great Indian visionary Sir C.V. Raman, the first Nobel Laureate in Physics from our country and the discoverer of 'Raman Effect' that has changed the world in many ways. Raman has been the scientist grown and lived with Indian ethos and who practiced throughout his life the concept of "Indigenous Technology and Sustainable Development". The Government of India is going to celebrate this year 'National Science Day 2012' with the theme "Clean Energy Options and Nuclear Safety".

The Department of Pure and Applied Physics is going to celebrate the National Science Day 2012 in our University with four scientific events starting from 28th Feb. to 27th March 2012. The active participation of students and teachers from various departments and colleges is highly encouraged.
