About the University

Guru Ghasidas Vishwavidyalaya (GGV) is located in Bilaspur, Chattisgarh. It was first established by an act of the State Legislative Assembly on 16th June, 1983 as Guru Ghasidas University. Later in the year 2009, it was upgraded as a Central University by Government of India, under Central Universities Act 2009, No. 25 of 2009. The university is appropriately named to honor the great Satnami saint Guru Ghasidas (born on 18th December, 1756), who championed the cause of downtrodden and waged a relentless struggle against social evil and injustice prevailing in the society.

About the Department

Forensic Science was introduced under School of Life Sciences of the University from the academic session 2012-13 with an objective to develop professionally competent manpower in the field of forensic science. A 5-year Integrated UG/PG program with an exit option on completion of third year (VI semester) having B.Sc. (Hons.) degree is run by the department. The department is equipped with rich library that includes textbooks and reference books. The faculty members of the department contribute regularly to scientific world through scientific and research publications.

About the Workshop

- Forensic science is incredibly helpful to investigators who are solving crimes, but it's not considered flawless. This workshop will look at current and future trends in forensics, and discuss problems that still need to be managed.
- One of the major objectives of conducting this 5 day's workshop in the field of Forensic Science for this region is to facilitate Capacity Building of researchers and students in area of sophisticated and advanced research. This would not only improve the status of research & development in

the state but also provide the trained manpower to excel nationally and internationally in the field of Forensic Science. While the training would provide a hands-on practice on state of art instruments it also inculcates instrument culture in the research scenario in the state. Further hands-on training and lectures training in the domains of Handling & Model Research will provide in respect to the need of the academicians, researchers and students of the state. In an effort to widen the knowledge spectrum and enabling exchange of ideas and make available the knowledge in the overall interest of the state in the field of forensic science will be achieved by this workshop.

- The workshop will provide a vital forum for leading forensics professionals and key industry figures to discuss the latest developments in forensic investigation technologies and techniques.
- The workshop will encompass all aspects of forensic investigation, offering ample opportunities for learning and professional development.
- The workshop will include hands-on lab experience and several in-person lectures. Attendees will get an opportunity to hear from guest speakers on the latest trends and best practices in digital forensics.
- There will be a Poster Competition based on the same themes of workshop.

• Themes of Workshop :

Criminology
Gender Sensitization
Criminal Laws in India
Forensic Biology
Computational Forensics
Forensic Medicine & Toxicology
Forensic Anthropology
Questioned Documents & Handwriting
Forensic Psychology and Forensic Psychiatry
Wildlife Forensic Science
Digital Cyber Forensics
Techniques in Forensic Science (Instrumentation)
Crime Scene Investigation

About Bilaspur

It is the second largest city after Raipur-Bhilai-Durg, the tricity metro state. The Bilaspur High Court is the largest High court in Asia. The city is the commercial centre and business hub of North East Chhattisgarh region. It is also an important city for the Indian Railways, as it is the headquarters for South East Central Railway Zone and Bilaspur Railway Division. Bilaspur is also the headquarters for South Eastern Coalfields Limited. Bilaspur is nearly four centuries old. Referred to as the "Rice Bowl of India", Bilaspur abounds in lush greenery and boasts of a myriad number of tourist attractions. Bilaspur had already made a mark as home to the major tasar silk and cotton clothes manufacturers. Bilaspur is known for its aromatic rice variety named Doobraj rice, handloom woven colorful soft Kosa Silk Saris. It is also known for its rich, varied and colorful culture. The local cuisine is well known for samosas of nitti and paratha of chikka.

- The aim of this National Workshop to promote quality research and real-world impact in an atmosphere of true national cooperation between scientists and students by bringing together again the researchers, national Communities, and Industrial heads to discuss the latest developments and innovations in the fields of Forensic Science.
- We sincerely hope that this Skill Development National workshop serves as an international platform for meeting researchers from around the world, widen professional contact and create new opportunities, including establishing new collaborations.
- We are looking forward to seeing you at CCOST-sponsored Five Days Skill Development National Workshop, 2019.
- Students Opportunity:
 - We make sure to support and motivate 'students' by:
 - Students will get opportunity to participate in Poster Competition.
 - Establishing their academic and professional relationships.
 - Improving their morale and confidence in presenting research on an international platform.
 - Interacting with expertise in their respective departments.
 - Clearing your inhibitions of adjusting to the foreign environment.
 - Providing a holistic experience of academic tourism.
