"Integrating Forensic Science and
Society for Awareness against Crime"
(IFSSAC-2018)

September 18th, 2018

Sponsored by Chhattisgarh
Council of Science and Technology
(CCOST), Raipur (C.G.)

Co-sponsored by SIFS,
New Delhi, India

About the University

Guru Ghasidas Vishwavidyalaya (GGV) is located in Bilaspur, Chattisgarh. It was first established by an act of the State Legislative Assembly on 16th June, 1983 as Guru Ghasidas University. Later in the year 2009, it was upgraded as a Central University by Government of India, under Central Universities Act 2009, No. 25 of 2009. The university is appropriately named to honor the great Satnami saint Guru Ghasidas (born on 18th December, 1756), who championed the cause of downtrodden and waged a relentless struggle against social evil and injustice prevailing in the society.

About the Department

Forensic Science was introduced under School of Life Sciences of the University from the academic session 2012-13 with an objective to develop professionally competent manpower in the field of forensic science. A 5-year Integrated UG/PG program with an exit option on completion of third year (VI semester) having B.Sc. (Hons.) degree is run by the department. The department is equipped with rich library that includes textbooks and reference books. The faculty members of the department contribute regularly to scientific world through scientific and research publications.

About the seminar

An increase in the crime rate is an opportunity to look at society and at ways to reduce crime through prevention and intervention. As citizen of India it should be our prime responsibility to create awareness regarding reduction and prevention of crime in the society especially where we live. With this objective in mind we are proposing this one-day seminar with especial emphasis to Chhattisgarh state. According to the latest figures of NCRB, crime incidences in Durg-Bhilainagar (twin cities of Chhattisgarh) as well as in Raipur (capital) are less than many other prominent cities of nation owing to its population (Durg-Bhilainagar

has 10.4 lakh population and Raipur has 11.2 lakh population) but in rate of cognizable crimes, rate of these cities are much higher than many big cities of nation including metropolitan ones. Thus, it can draw a picture that both major urban areas of Chhattisgarh are dangerous than many big cities of nation owing to high incidence of crime cases reported in these areas. With an increase in crime rate, the need to administer instant justice to the victims of the crime and their families is becoming the foremost duty of the Criminal Justice System. To administer time bound justice and to punish a criminal is the most important duty of the court. The growing significance of forensic science and its application in crime investigation has paved an easier path for scientific investigation and administering justice in the right place and at the right time. Therefore, dispersing the knowledge and awareness of Forensic Science in effective administration of Criminal Justice system of Chhattisgarh will be the priority of present conference.

This seminar will witness a number of talks by eminent speakers and experts from different fields as well as work presented in the form of oral and poster presentations in the following broad scientific themes.

•Scientific Categories:

- Forensic Biology
- Forensic Medicine and Pathology
- Forensic Toxicology
- Forensic Sociology
- Computational Forensics
- Forensic Accounting
- Forensic Chemistry
- Forensic Engineering
- Forensic Psychology and Forensic Psychiatry
- Wildlife Forensic Science
- Digital Cyber Forensics
- Questioned Documents and Fingerprints
- Forensic Anthropology
- Forensic Physics and Ballistics

About Bilaspur

It is the second largest city after Raipur-Bhilai- Durg, the tricity metro state. The Bilaspur High Court is the largest High court in Asia. The city is the commercial centre and business hub of North East Chhattisgarh region. It is also an important city for the Indian Railways, as it is the headquarters for South East Central Railway Zone and Bilaspur Railway Division. Bilaspur is also the headquarters for South Eastern Coalfields Limited. Bilaspur is nearly four centuries old. Referred to as the "Rice Bowl of India", Bilaspur abounds in lush greenery and boasts of a myriad number of tourist attractions. Bilaspur had already made a mark as home to the major tasar silk and cotton clothes manufacturers. Bilaspur is known for its aromatic rice variety named Doobraj rice, handloom woven colorful soft Kosa Silk Saris. It is also known for its rich, varied and colorful culture. The local cuisine is well known for samosas of nitti and paratha of chikka.

Abstract Submission

Authors are invited to submit their abstracts (Title, Authors, address, brief summary and keywords), scientific themes should be clearly mentioned. All papers submissions will be peer reviewed and evaluated based on relevance to the seminar. Abstract should be submitted along with the registration. No abstract will be accepted without registration charges.

All abstracts (must be in English and in MS Word format, font 12 in Times New Roman and maximum in 300 words) should be submitted as a single attachment to **Organizing Committee** by email: **ifss2018ggv@gmail.com** before **16th September, 2018**.

Call for Full length paper

Participants are requested to send their full-length paper in MS – Word format to the **Organizing Committee** by email: **ifss2018ggv@gmail.com**. Poster should be prepared in 2X3 square feet area.

Accommodation

Accommodation will be provided on prior intimation, on payment basis. Registration fee is not inclusive of accommodation charges. Please send the request to **Organizing Committee** by email: **ifss2018ggv@gmail.com** before **16th September, 2018**.
