# 1. Introduction

## What Is Salesforce?

Salesforce is your customer success platform, designed to help you sell, service, market, analyze, and connect with your customers.

Salesforce has everything you need to run your business from anywhere. Using standard products and features, you can manage relationships with prospects and customers, collaborate and engage with employees and partners, and store your data securely in the cloud.

Salesforce is the world's #1 CRM (Customer Relationship Management) where it unites Marketing, Sales, Commerce, IT etc teams to their customers to deliver a better service. We are determined to teach this emerging Technology in a very realistic and fun way. We have organized the challenges in such a way that the learner will be able to learn salesforce in a very enthusiastic and fun way with a limited time participation. This program consists of live sessions, Hands-on practical activities, Mentoring support and working on super badges on Trailhead platform. In order to help all beginners understand the salesforce ecosystem and its products, we have curated a few best modules on the trailhead platform that will help you to get ready for the Bootcamp.

## Super Badge:-

Super badges are skill-based, domain-level credentials that ask you to show your Salesforce expertise by solving complex, real-world-inspired challenges that businesses face every day. To earn a super badge, you must first unlock it by completing prerequisite Trailhead badges on core concepts.

## Apex Specialist:

Apex is a programming language that uses Java-like syntax and acts like database stored procedures. Apex enables developers to add business logic to system events, such as button clicks, updates of related records, and Visual force pages. As a language, Like other object-oriented programming languages, these are some of the language constructs that Apexsupports:
